### **PROFESSIONAL PROFILE**

Results-oriented and highly skilled web developer with a proven track record of delivering exceptional web applications and websites. Possessing a strong ability to multitask, meet deadlines, and provide excellent customer service, I excel at leveraging various techniques and languages to create modern and visually appealing solutions. With expertise in HTML5, CSS3, JavaScript, and PHP, as well as proficiency in WordPress, Shopify, Bootstrap, and Materialize CSS, I am well-equipped to build high-quality, user-friendly websites. Committed to web accessibility and UI/UX best practices, I strive to deliver exceptional user experiences across multiple devices and browsers. With certifications in Advanced Software Development, HubSpot Dev, A&B Testing, and UX Design Fundamentals, I am continuously expanding my skills and staying up-to-date with industry trends. Through effective collaboration with clients and teams, I consistently meet project deadlines and exceed expectations.

## PROFESSIONAL EXPERIENCE

Oakwood Homes Co | Denver, CO | July 2022 to May 2023 | **Front End Developer**

Assist with the development, maintenance, and security of Oakwood's front-facing community of websites. Maintain web design consistency and the enforcement of established standards and best practices. Find ways to improve the sites and continuously validate that the websites provide a great user experience. Refresh site content regularly and timely complete assigned department projects/tasks. Help keep online listing data fresh and accurate. Ensure our sites are accessible, responsive, and optimized to increase conversions across multiple devices and browsers. Work collaboratively with contractors and other departments on site testing and feedback to drive future projects.

Stickley | Manlius, NY | Feb 2020 to Oct 2022 | **Web Developer**

As the Web Developer for Stickley, I am responsible for coding and modifying our company's websites, from layout to function, and assisting the Digital Marketing Manager to create visually appealing sites that feature user-friendly design and clear navigation. This is a dynamic environment working with Graphic Designers and the Marketing team.

JS Software Development | Denver, CO | May 2018 to Present | **Web Developer**

Built websites and applications utilizing various techniques and languages. Responsible for and balanced numerous projects continuing to meet customer demanded deadlines. Secured customer service needs and requirements critical to each project.

Colorado Barricade | Denver, CO | June 2018 to January 2020 | **Web Administrator**

Managed and built web applications, employee intranet and website. Responsible for managing firewalls, security systems, computers/printers, email accounts, VOIP phones and the network: website traffic, Wireless Access Points and Switches.

Colorado Barricade | Denver, CO | June 2016 to June 2018 | **Traffic Control Plan Designer**

Communicating with clients to design traffic control plans that meet MUTCD standards. Working in a team environment to meet client's needs. Direct contact with customers via phone, email, and face-to-face. Scheduling and customer service responsibilities.

Warning Lites INC | Denver, CO | 2007 to April 2016 | **Traffic Control Supervisor**

Responsible for the safety of construction crews to insure consistent traffic flow. Making decisions in a fast-paced environment, maintaining equipment used with accurate inventories, and overall supervision of the work zone.
